Mentoring Initiative Mentee Expectations

As part of the Migrant Education Program (MEP) Mentoring Initiative, I welcome the assistance from MEP Mentors. I will learn from the experience the mentors can provide to assist me as a new MEP Director. During our time together, I will ask for clarification as needed. I will build a transparent relationship by maintaining confidentiality, welcoming feedback, and communicating my goals and expectations. I will adhere to the agreed meeting dates and times. I will commit to learning from mentors as well as being prepared to share with them what is working or not working in this mentoring relationship.

Mentee Expectations

- Commit to working with my Mentor
- Be prompt for meetings
- Be prepared and focused during the meeting
- Keep all conversations confidential
- Listen well including being open to feedback about positive and negative factors
- Plan next meeting topics
- Commit to the recommendations of the mentor
- Evaluate the relationship periodically reviewing accomplishments

Mentees will not expect a mentor to:

- Provide specific solutions but offer guidance
- Spend more time on the mentor relationship than the mentor can give
